ANIMALS HAVE LANGUAGE.

Monkeys Called Together in Convention and Addressed by a Long-Tailed Patriarch.

The intellectual superiority of civilized man ove his savage brethren is due to the greater multiplicity of his objects of thought, says the *Gentlemen's Magazine;* and precisely so is it with the intellectual superiority of the savage man over his simian ancestors. The actions of all have the same aim, viz.: the supplying of the wants of physical nature and the gratifying of the desire aroused in the mind. The old theory that speech was altogether limited to the human race has now to be given up once for all, for such a statement cannot stand against the scientific evidence brought forward to oppose it from all quarters.

Language is but a product of reflection and experience, and originated, in all probability, in interjection or the instinctive expression of the subjective impressions derived from external nature; and just as the reflective powers of the race were developed and shown more brilliantly as each stage in the evolutionary march of intellect was passed, so did language pass from the simple monosyllablic cries of the lower animals and savage men to the complex dialects of modern civilization; and it is worthy of note that at the present day, or at least very recently, there were races of savage men inhabiting the earth who possessed no proper language at all, and could not, on account of their manner of living, be placed on a higher intellectual level than the higher apes; while we have the authority of the leading philologists of the day in support of the fact that the monosyllabic cries of some of the lower human tribes are well within the grasp of the ape's voice.

Travelers whose veracity and ability cannot be impugned have described long conferences held by monkeys, where one individual addressed the assembly at great length, fixing the attention of all upon himself and quelling every disturbance by a loud and harsh cry, which was at once recognized and obeyed by the multitude; and we need no traveler to point out to us the many notes of call and recognition possessed by birds of all kinds, who thoroughly understand each other's expressions, and, moreover, are able to produce quite a string of different notes consecutively and without any hesitation. In fact, the organ of voice in some of the lower animals far exceeds in power that of some tribes of the human family.

The Euphonia musica of the East Indies can perform the seven notes in the scale; the chaffinch not only sings real songs, but invents them, one of his songs containing as many as five long strophes, while the songs of many savage races of men never run to half that length, and when Cook visited the Fiji Archipelago the native women could only sing from la to mi Asia appears to have been the birthplace of stringed instruments, no southern tribes ever having been discovered using such musical appliances. We see, therefore, a gradual improvement taking place in vocal apparatus as we rise in the animal scale, which results in speech and song, and, indirectly, in instrumental music of various degrees; and we find fresh proof that there is as wide a difference between the development of civilized European and the savage man as between that of the savage man and his brute ancestry.

CIVIL SERVICE.

The President, in a Message on the Subject, Gives Some Important Suggestions.

WASHINGTON, July 23.—The president sent to congress to-day his message transmitting the fourth report of the United States civil service commission, covering the period between the 16th of January, 1886, and the 1st of July, 1887.

In the course of the message the president says: The path of civil service reform is not at all times pleasant, nor easy, the purpose of reform having been much misapprehended and this has not only given rise to strong opposition, but has led to its innovation by its friends, to compass objects not in the least related to it.

Thus partisans of the patronage system have naturally condemned it. Those who do not understand its meaning either mistrust it, or when disappointed because in its present stage it is not applied to every real or imaginary ill, accuse those charged with its enforcement with faithlessness to civil service reform.

Its importance has frequently been under estimated and the support of good men has been lost by the lack of interest in its success. Besides all these difficulties, those responsible for the administration of the government in its executive branches have been and are still often annoyed and irritated by disloyalty to its service and the insolence of employes who remain in place as beneficiaries and relics, or reminders of the vicious system of appointment, which civil service reform was intended to displace, and yet these are but incidents of an advance in the movement which is radical and far reaching.

The people are, notwithstanding, to be congratulated upon the progress which has been made and upon the firm, practicable, sensible foundation upon which this reform now rests. With the continuation of the intelligent fidelity which has hitherto characterized the work of the commission, with the continuation and increase of favor and liberty which has lately been evinced by congress in the proper equipment of the commission for its work, with the firm, but conservative and reasonable support of reform by all its friends and with the disappearance of opposition which must inevitably follow its better understanding, the execution of the civil service law cannot fail to ultimately answer the hopes in which it had its origin.

The president has approved the act extending the limits of the port of New Orleans, the branch home for disabled volunteer soldiers in Grant county, Indiana, and an act providing for the sale of the site at Fort Omaha, Nebraska.

The house has passed the senate bill to protect quarantine service in the United States.

TEN MEN KILLED.

A Conductor Fails to Understand His Orders, and a Deadly Collision Follows.

LYNCHBURG, Va., July 23.—A terrible accident occurred on the Norfolk and Western railroad, at Forest depot, about eight miles from this city, at 1 o'clock yesterday morning. Ten men were killed. A freight train, which left Lynchburg about midnight last night, collided at a cut near Forest depot with an east bound material train, causing a complete wreck of both trains. Engineers Henry and Harris, Darnley, the fireman of the material train, and several colored train men, whose names are unknown, were killed. Fireman Mays, of the freight train, was fatally injured. The conductor escaped with light bruises. The accident was caused, it is claimed, by the conductor of the material train misunderstanding orders.

Eight bodies were taken from the wreck on the Norfolk and Western railroad and the report is received taht two more are in sight. The list includes Walter Harris and William Henry, engineer, James Donnelly, fireman, all white, and four colored men. A misunderstanding of orders is said to have been the cause of the accident.

Boy Badly Injured.

WABASH, Ind., July 23.—A sad accident occurred yesterday at Puckerbrush, this county, to Bret Stewart, the twelve-year-old son of Mrs. David Stewart, who started for the woods to shoot a squirrel for his mother, who is sick. The heavy shotgun was placed against a woodpile and in some manner discharged. The heavy charge entered the lad's left breast and passed out below the shoulder-joint, shattering the arm and severing the humerus. The boy's condition is critical

Two Men Seriously Stabbed.

SHELBYVILLE, Ind., July 23.—Hez Richey and Lon Laws, two rough characters of Marietta, attacked Allen Collins, aged about eighteen years, at that place, yesterday, and beat him in a fearful manner, when Collins drew a knife and began cutting the men in lively style. Laws received a dangerous stab in the stomach, while Richey was carried off with several bad wounds. They are both seriously injured.

Congressman White, of this district voted against the Mills bill, although elected as a tariff reformer and liberal republican. The captain will not get any democratic votes this year of our Lord, 1888. Mark the prediction.

BLAINE'S OVATION.

How the Plumed Knight Will be Received in New York City, Upon His Return From Europe, on August 7th.

NEW YORK, July 23.—James G. Blaine's reception on his return from Europe promises to be one of the greatest demonstrations ever witnessed in this country. From what is known it is the belief that there will be over 50,000 people in line, in the parade which will march from Mr. Blaine's landing place to the Fifth Avenue hotel, on the night of August 7.

A grand water pageant will be represented on the arrival of the City of New York at quarantine. Every republican organization in the city will have a special tug chartered to meet the man from Maine. Republican clubs will each take a similar action and it is believed that over 500 crafts of all descriptions will take part in the welcome.

The New York club has already chartered the steamer Sam Sloan, which has a capacity of 1,500. Sam Sloan will be used to transport the members of the club, the national committee, officers of the national league of republican clubs, members of the state committee, and many other guests. Every boat in the big fleet owned by the Iron Steamboat company has already been chartered and steamboat men say there is not an available tug along both fronts of the river in Brooklyn and New York, which has not been hired for the great display.

The clubs from Boston, Philadelphia, and other cities along the eastern seaboards will also have their boats in the parade. The land parade will be a monster affair. Secretary J. W. Jones says there will be more than 1,000 clubs represented in the pageant and that notifications from points as far in land as Ohio are daily pouring in. Mr. Blaine will review the big parade from the balcony of the Fifth Avenue hotel and it is expected he will make a short address to the multitude.

IVES SAYS "NIXEY."

He Will Not Listen to Negotiations for a Settlement From the Other Side.

NIAGARA FALLS, N. Y., July 23.—Financiers Ives and Stayner spent yesterday quietly.

Mr. Ives says that the other side is now proposing negotiations for a settlement, but he and his associates will not listen to anything of the kind. He seems very cheerful and other guests at the hotel say that he seems less worried about the indictments than the newspaper men, who used every strategem to get interviews with him. He would not have talked at all if they had not finally found it was useless to try to avoid them. Since he made the statement published yesterday he has not been so careful to conceal himself.

PANIC AMONG THE WORSHIPERS,

Caused by Lightning Striking a Church —The Pastor's Coolness Averts Trouble.

CHICAGO, July 23.—During the thunder storm yesterday morning, while Evangelist Moody's old church, at LaSalle and Chicago avenues, was crowded with worshipers, the belfry was struck by lightning, tearing off a large part of the slate roofing. The congregation was much alarmed, and a rush was made for the street. A panic was averted, however, by the coolness of the pastor, Rev. Charles Goss, who continued the services as though nothing had happened, and in a few minutes the frightened auditors resumed their seats.

Killed by a Train.

MONTPELIER, Ind., July 23.—J. C. Maddox was struck by the engine of a freight on the Fort Wayne, Cincinnati and Louisville, at 10:30 Saturday and killed. The engine and four cars passed over the body. Mr. Maddox's horse frightened and started down the track ahead of the engine. The horse escaped, but he was thrown in front of the engine. Mr. Maddox was one of the most prominent men in this part of the state. He was a lawyer, past seventy years of age, but vigorous as many men at fifty. He was very wealthy.

Killed by a Fall.

COLUMBUS, Ind., July 23.—Yesterday Martin McCalpin was found dead, with his skull crushed, at the abutment of the White river bridge, at the edge of this city. He had fallen a distance of twenty-five feet, striking on the rock, and his death was instantaneous. Whether he fell over the bank or was struck and knocked over is not known. He was about twenty-five years old and lived with his father, a short distance from where he was killed.

Young Girl Fatally Shot.

DECATUR, Ind., July 23.—On the farm of F. M. Moore, a few miles from this city, Albert M. Fields shot and mortally wounded Flora Kilpatrick, aged seventeen. The girl had refused to attend a camp-meeting with Fields, and the shooting followed. The murderer was captured shortly afterward and placed in jail in this place. There is much excitement in the vicinity.

WISCONSIN GOT IT.

Heavy Rain and Hail Storms Visited the Badger State Yesterday —Much Damage Done.

PLYMOUTH, Wis., July 23.—This vicinity was visited with heavy rain storms yesterday. Several inches of rain fell, besides a heavy hail, which has done incalculable injury to fruit and crops. A large amount of winter grain is reported utterly destroyed and is so worthless as not to repay the cutting. The storm has been quite general and covered a large area of country.

SHOVERS OF THE QUEER.

Two of Them Arrested This Afternoon at Pittsburg.

PITTSBURG, Pa., July 23.—Two dangerous counterfeiters were arrested this afternoon while attempting to swindle an old man. They had in their possession $45,000 in spurious greenbacks and a large number of dies for quarters and half dollars.

Union Meeting of Railroad Men.

PITTSBURG, July 23.—At a large meeting of Brotherhood locomotive engineers and firemen here yesterday arrangements were made for a grand union meeting of all the lodges in this section, to be held three days, commencing August 27. Among those who will be present are, Chief Arthur, Grand Master Sargent, Vice Grand Master Hanrahan, Chairman Hoge and Eugene V. Debbs. The object of the meeting is not known.

Corner-Stone Laying.

DANVILLE, Ind., July 23.—Yesterday occurred the laying of the corner-stone of St. Elizabeth hospital. Quite a crowd was in the city, excursions coming from different points. The different Catholic societies paraded the streets, accompanied by the police and G. A. R. posts. The sermon was delivered by Father J. F. Donovan, of Tolono.

Safe-Blowers.

MARSHALL, Ind., July 23.—There was another mysterious safe-blowing here early yesterday morning. The large steel safe in Besser & Marvin's flouring mill was blown to pieces and all the contents taken. Only a few dollars in money were secured and notes and accounts of considerable value.

Seriously Cut.

TIPTON, July 23.—Harry Justus, a brick mason, struck John Tarpy, a grocery clerk, on the neck with a trowel, yesterday, cutting several small arteries, and making a very dangerous wound. Justus is in jail. The assault was unprovoked, and the feeling against Justus is bitter. Tarpy's recovery is doubtful.

ADDITIONAL LOCAL.

Mr. B. Cohn and J. F. Gerke, city, are registered at the Aveline house.

M. Straus, Chicago; Robert Ewing, Huntington, B. F. Fisher, Van Wert, are at the Aveline.

Mr. Will Read, chief clerk of the Wayne, is at home from Detroit. He looked at the great game of ball Friday.

Mrs. Mary Martz was fined $1 and costs this morning by Justice France, for calling Mrs. Mary Dennis a bad name.

H. C. Hanna, C. E. Orff, C. E. Kane, G. B. Grimme, A. C. Gocke, H. A. Read and J. W. Lowry, of this city, dined at the Wayne yesterday.

Miss Jesse Brown, Jackson, M. W. Simons, Plymouth, C. E. Rhoades, Indianapolis, John M. Reidmiller, R. J. Fisher, Dr. J. M. Dinnen, city, are guests of the Wayne.

Dr. and Mrs. W. H. Myers leave tomorrow for New York City to sail thence for Europe. The doctor is a delegate from the American Medical society to the British association.

Everybody interested in the fair of the railroad reading room are earnestly requested to be present at a general meeting to be held in the parlors, 245 Calhoun street, this evening at 7:30 p. m., standard time. By order of the committee of management.

The Indianapolis *Sentinel* came out in a strong editorial this morning, insisting that the Indianapolis council award the contract for lighting that city to the Jenney company, of Fort Wayne. Every Indianapolis paper, save the *Journal*, has spoken favorably for the Jenney company. The *Journal* cannot forget the friendship of the Jenney people for Judge Gresham and seeks to revenge itself by defeating their proposition to light Indianapolis. It is to be hoped the Jenney company will succeed.

"IT," a remarkable cat, died at Putnam, Conn., last week. The animal had seven legs and two tails. Her strange deformity enabled her to do many tricks: "She was able to walk at any angle without turning, and whenever the perpendicular walls were near enough together she could go up them as easily as she could walk the floor, while it was her favorite sport to climb a tin pipe to the roof of the house. She was placed in a triangular black walnut box, with the simple inscription "It," and many of the villagers attended the burial.

BISMARCK HONORED.

He Holds an Audience With the Czar and Has Honors Bestowed Upon Him.

ST. PETERSBURG, July 23.—Count Herbert Bismarck, who accompanied the emperor of Germany on his visit to Russia, was granted an audience of an hour and a quarter by the czar yesterday. The czar bestowed upon the count the brilliant decoration of the order of St. Alexander Newski.

ST. PETERSBURG, July 23.—The czar will return the visit of Emperor William in the autumn, stopping at Berlin on his way from Copenhagen to St. Petersburg.

LONDON, July 23.—At a meeting of the cabient today it was decided to hold the autum session in the second week in August and it will reassemble in October.

EMIL SCHANDEIN DEAD.

Demise of the Millionaire Brewer at Bremen, Germany.

MILWAUKEE, Wis., July 23.—A cablegram received here yesterday announces the death at Bremen, Germany, of the millionaire brewer, Emil Schandein, vice-president of the Best Brewing company. He had been away but a month, having gone to Europe immediately after the democratic national convention, to which he was a delegate-at-large from Wisconsin.

Obituary.

LAFAYETTE, Ind., July 23.—City Treasurer John B. McCutcheon died this morning, after a brief illness. Politically, Captain McCutcheon was a democrat, and very popular with voters, having been elected sheriff, of this county, a republican stronghold. He had about thirteen months to serve as city treasurer. He was sixty years old.

General Sheridan.

NEW BEDFORD, Mass., July 23.—General Sheridan this morning is feeling strong and bright. He continues to take solid food and the character of his nourishment is being changed to that approaching the diet of a healthy man. To-day he will doubtless be permitted to see his friends.

Says Randall's Illness is Fatal.

NEW YORK, July 23.—The World's special from Washington says that Mr. Randall is suffering from cancer of the stomach, and will probably not return to the house, as the disease is far advanced and incurable.

Democrats Organizing.

Saturday night the democrats of Lafayette township met at Center school house and organized a Cleveland and Thurman club, with Mr. Geo. Lawrence as president. Speeches were made by Hon. J. M. Barrett and Hon. C. A. Munson. The greatest enthusiasm prevailed and Lafayette township is in splendid fighting form.

Another rousing meeting was held at Hoagland and a big Cleveland and Thurman club was organized. Mr. J. M. Robinson made them a great speech. The democrats down that way are jubilant and confident.

The Weather.

WASHINGTON, July 23.—Indiana: Fair weather, preceded by local rains, followed by stationary temperature, slightly cooler on Tuesday.

THE MARKETS.

NEW YORK, July 23.—The stock market was quite dull but generally steady at the opening, most of the list being unchanged from Saturday's closing prices or a slight fraction different. Subsequent dealings are almost devoid of feature. At 11 o'clock the market was very dull and about steady at the close to opening prices.

DO WE WANT CUBA?

Ethan Allen Advocates Its Purchase by the United States for $100,000,000.

NEW YORK, July 23.—The *Sun* prints an interview with Ethan Allen, who has taken much interest in Cuban affairs, in which he says the only hope for Cuba is her annexation to this country. All our efforts should tend to the peaceful acquisition of Cuba. The great majority of Cubans look upon this as their deliverance and their country's salvation. The only obstacle in the way is Spain, and as she has already entertained the idea of disposing of Cuba, provided she can get her price, this difficulty is easily gotten over.

"I advocate its peaceful acquisition. In my judgment $100,000,000 will secure this noble island to us. Congress ought to take the initiative at once. We have a surplus and are quarrelling as to how to dispose of it. Here is a way in which it may be used, or a portion of it, with great profit in finance and with great glory to our republic."

THE ALLEGED DYNAMITE PLOT.

A Chicagoan Who Says It Was Planned by Detectives to Enhance Their Reputations.

A gentleman from Chicago, a guest at the Bates house, said yesterday to a reporter of the Indianapolis *Journal*, that the big sensation over the dynamiters at Chicago was the result of a well-laid scheme of the Pinkerton Detective company and an official high up in police circles, who were laboring by these means to enhance their own reputations. "I form my opinion wholly from the evidence in the case," said he. "Every one of the men who are offering the testimony against the Brotherhood members went into the railroad business and joined the Brotherhood just before the strike.

"No sooner were they in the organization, it appears, than they began to develop an abnormal appetite for blood and began to talk about dynamite plots. It ought to bring the Pinkerton company into everlasting disgrace, and the 'Q' company, too, if it was in any way connected with it. The whole business is a pure 'fake' and the people of Chicago are beginning to realize it.

"Another thing that looks very silly is all this talk about dynamite cartridges being placed on the 'Q' tracks. Several of them have been found along the road, but none of them have done any damage as yet.

"It is claimed the intention of these is to frighten passengers and injure traffic. Well, now, it stands to reason, that any one who was bold enough to put any kind of a cartridge on the track, would not hesitate to put one on that would do some damage, and not these things that have been filled with sawdust. They were large enough, if filled with dynamite, to blow a hole through the board of trade."

KILLED BY A TRAIN.

Mr. McDonald, Formerly of This City is Run Over and Killed at Leipsic, Ohio.

Yesterday afternoon while Mr. James McDonald was attempting to board a train on the Nickel Plate railroad, at Leipsic, Ohio, he lost his hold and fell under the wheels. The train was in motion at the time and the wheels passing over him, killed him instantly.

Mr. McDonald was a resident of Ohio, but was at one time employed with the Nickel Plate railroad in this city.

He had been in the employ of the road here for six years, but left several months ago for Ohio, where he has since lived. His remains were taken to Granville, O., where his mother resides.

THE ECLIPSE.

The Great Free Show Seen in the Heavens Last Night.

The eclipse of the moon came off last evening as advertised and was witnessed by a large number of people in this city, many of whom remained up until the phenomenon in the heavens had passed through all its stages. The clouds, which began to gather a short time after the moon had entered the earth's shadow, interfered considerably with the sight, still our citizens obtained a very good view of it.

It began about 10:30 o'clock and reached its totality at 12:20, emerging from the shadow at 1:44 and leaving it entirely at 2:31.

The well-known copper color, due to the reflected light, was distinctly visible, giving it a hazy appearance that grew more so the nearer the eclipse reached its totality.

It was quite an interesting sight and as the spectators who witnessed the grand show, paid nothing for admission or reserved seats, the exhibition gave general satisfaction.

You Carry

A whole medicine chest in your pocket, with one box of Ayer's Pills. As they operate directly on the stomach and bowels, they indirectly affect every other organ of the body. When the stomach is out of order, the head is affected, digestion fails, the blood becomes impoverished, and you fall an easy victim to any prevalent disease. Miss M. E. Boyle, of Wilkesbarre, Pa., puts the whole truth in a nutshell, when she says: "I use no other medicine than Ayer's Pills. They are all that any one needs, and just splendid to save money in doctors' bills."

Here is an instance of

A Physician

who lost his medicine chest, but, having at hand a bottle of Ayer's Pills, found himself fully equipped.—J. Arrison, M. D., of San José, Cal., writes:

"Some three years ago, by the merest accident, I was forced, so to speak, to prescribe Ayer's Cathartic Pills for several sick men among a party of engineers in the Sierra Nevada mountains, my medicine chest having been lost in crossing a mountain torrent. I was surprised and delighted at the action of the Pills, so much so, indeed, that I was led to a further trial of them, as well as of your Cherry Pectoral and Sarsaparilla. I have nothing but praise to offer in their favor."

John W. Brown, M. D., of Oceana, W. Va., writes: "I prescribe Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

T. E. Hastings, M. D., of Baltimore, Md., writes: "That Ayer's Pills do control and cure the complaints for which they are designed, is as conclusively proven to me as anything possibly can be. They are the best cathartic and aperient within the reach of the profession."

THE national democratic and republican campaign headquarters are open and lively preparations are being made for the struggle.

BISHOP VINCENT, in a letter from Chautauqua indorsing Harrison, says: "Being an anti-Romanist, I am a republican." And we are to have another Burchard, under another name.

THE Philadelphia *Press* twitted the Philadelphia *Times* for having changed its policy in supporting Cleveland and tariff reduction. The *Times* retorts that "wise men change, fools never."

CALVIN S. BRICE, the chairman of the democratic national executive committee, used to teach school in Ohio and take part of his pay out in boarding around at the homes of his pupils. It was the father of one of his pupils who gave him his start towards a fortune. The old man saw the young teacher, liked him and let him into a growing railroad enterprise at a low cost. It succeeded. If it had failed Calvin S. Brice would have been penniless, for he had put into it every dollar of his savings.

THE Philadelphia *Times* contributes this: "General Harrison's private secretary, D. S. Alexander, is a native of Erie county, Pa., and a graduate of Bowdoin. After graduating he taught in the public schools of Fort Wayne. He afterwards became one of the editors and proprietors of the Fort Wayne *Gazette*, but went from journalism into law, settling at Indianapolis. He never relinquished entirely his interest in journalism, and in political campaigns has been the Indianapolis correspondent of the Cincinnati *Commercial Gazette*. Under Garfield he was fifth comptroller of the treasury through Senator Harrison's influence. Mr. Alexander is a large, fine-looking man, with reddish hair and sparkling brown eyes, genial temperament and courteous demeanor."

THE Mills tariff measure passed the house Saturday by a decisive vote. It is a conservative bill, aimed alone at a reduction of excessive and unnecessary taxation. While it is remote from free trade, it pretends to increase the opportunities and advantages of the working classes, by making the cost of living less and the demands for labor more. The bill now goes to the republican senate and what its fate will be no one can tell. It will still encounter the opposition of the protected capitalists who reap millions of dollars, if it did not do this they wouldn't oppose it. The Mills bill, however, will go down to history as a just, wise and conservative measure. It can be printed side by side with the present tariff schedule and will convince every honest voter of the necessity and righteousness of the tax reduction it attempts. If anybody who pays taxes likes the business, and prefers to pay more rather than less taxes, why it is useless to convince him that the Mills bill is a just one. But if a man prefers to pay low rather than high taxes he ought to be honest enough to give the Mills bill unqualified approval and vote for Cleveland and Thurman.

A peculiarity of Hood's Sarsaparilla is that while it purifies the blood, it imparts new vigor to every function of the body.

A TARIFF LESSON.

A high tariffite orator or writer does not usually condescend to argument. He is mostly sentimental, exclamatory and lachrymose, but occasionally he seems to feel that the people may weary of his "taffy" and he proceeds to give them what he calls "cold facts." On these occasions he usually does not employ official statistics, compiled by skilled men, but he pulls out of some dusty corner "fishy" reports of a paid attorney of his cause, gleaned on a flying trip and based upon "Studies of the industrial condition of Europe," made from a car window. Having thus arranged his premises to his own satisfaction, he jumps at a conclusion, thrusts his tongue in his cheek, winks slightly, and says to himself, "a devilish sly fellow am I."

If his argument bristles with figures, you may be sure it bristles with folly or falsehood. If he compares the prices of Australian wool with our own, he selects the lowest grade there and compares it with the highest grade here, and chuckles at the trick. He well knows that the market reports show that medium wools sell at Sydney for from 20 to 24 cents per pound. If he quotes Bradstreet to show that the Mills bill has depressed the wool market, he conceals the fact that between 1867 an ! 1883, the period of highest protection, wool has repeatedly sold at from 20 to 25 cents per pound. He knows very well that the market is overstocked with woolen goods, that the manufacturers are receiving no orders, and hence are buying little wool, and that therefore wool is low. He knows that these periodical depressions are the inevitable consequence of high protection. He knows that the wool market has been steadier and has maintained a higher level under a low duty than under a high one. All these things he knows, but he speaks not of them. They would spoil his conclusion.

Would he demonstrate the great loss the farmer suffers by the removal of the duty on wool, he quietly repudiates what at other times he loudly asserts, viz: that the price of an article is not increased by the full amount of the duty, and he says nothing about what the farmer loses by the extortionate duties on manufactured woolens. He knows that in the eight states of Illinois, Iowa, Indiana, Ohio, Pennsylvania, New York, Michigan and Wisconsin there are about 14,000,000 sheep, and that in these same states there are about 2,000,000 farmers exclusive of agricultural laborers. Each farmer averages, therefore, a fraction more than seven sheep, or forty-two pounds of wool. His gain from the duty of ten cents per pound could not exceed $4.20, while his loss, if he buys $70 worth of woolen chothing, blankets, flannels and carpets per annum, would be $14, provided our average duty of 70 per cent. raises the price only 20 per cent. If the duty does not raise the price that much there is not much protection in it, is there? Each farmer then loses $9.80 cents by the duty, and the farmers of these eight states lose annually about $18,000,000. This, too, the high tariffite knows, but speaks not of. He can see only one side of the ledger. He stontly declares that he reckons he knows his multiplication table as well as any one, and probably he does; but I have been told that not infrequently, bright boys in school fail to solve the simplest problems, not because they do not know their multiplication table, but because they fail to reason correctly upon the results obtained by multiplication. "The bearings of an observation lay in the application on it."

Does some one expose our high protectectionists folly or disingenuousness, "he yells "pauper labor of Europe," a trifle more lustily than usual. This is an argument of about the same cogency as that other famous argument, "Do you want your daughter to marry a nigger?" And it is used by men of about the same calibre.

Having made himself hoarse with shouting this battle cry of slavery (for commercial restriction is commercial slavery) our high tariffite sniffles a little over the woes of the men whom he is helping to oppress, wipes his nose on his country's flag, puts on his silk stockings and goes off to dine with his monopolist employer and to devise new schemes to impose upon the unwary. "He's tough, sir, tough is J. B. —tough and devilish sly."

Yours very respectfully,

LOW TARIFF.

The Newspaper Revolution.

From the Rockford (Ill.) Register.]

"The era of cumbrous blanket-sheets seems coming to an end, and newspapers like the *New York Sun* and THE CHICAGO DAILY NEWS are the prominent journalistic successes of the period. The papers that give enough reading matter to fill a good volume in each daily issue are going out of favor with many people who have some other employment for their time than the search through mountains of straw for kernels of news. The sheets that give the news systematically and amply, and without unnecessary padding, are taking the lead in the great cities."

Forty years ago the chief duty of an editor, in view of his limited facilities, was to gather all the news he could and print it. Intelligence was transmitted slowly; many occurrences of interest were never heard of beyond their immediate locality; ocean mails were long in transit, and the overthrow of an European dynasty was not known here until long after the event. Suddenly there came a change. The railroad and the telegraph superseded old methods, and the newspaper was literally flooded with news. The death of a petty ward politician in San Francisco, the result of a Presidential election, the accession of a sovereign, the outbreak of a war, and notice that a shanty had been burden in Texas, all were hurried over the wires into the newspaper offices, and there being no idea of discrimination, all were printed. Thus originated the "blanket sheet." The publisher who could send out the biggest blanket for a nickel was the most enterprising; the biggest paper was the best; it was a period of bigness. But after a time the very excess of the evil brought the remedy, and there began an era of discrimination, during which arose such journals as the *New York Sun* and THE CHICAGO DAILY NEWS. That the public appreciated the new departure is best evidenced in the fact that the *Sun* reached a circulation of 150,000 a day, and THE DAILY NEWS 175,000. The wonderful and constantly growing popularity of the condensed, low-priced papers has so far brought the cumbrous and high-priced blanket-sheets to their senses, that they have now somewhat reformed both as to size and price, but they are still too far removed from the true ideal of American journalism to meet the needs of the great majority.

In the west THE CHICAGO DAILY NEWS has been the first to appreciate and meet the situation, and it now enjoys the results of its twelve years of pioneer work in a daily circulation averaging over three times that of any of its contemporaries, and considerably more than the circulations of all other Chicago dailies combined. It is hardly necessary to say that such a circulation could not be attained, much less maintained, except by a paper of high grade of excellence, as well as one sold at a popular price. To win such recognition the cheap paper must be *as good a newspaper* as the best of of its higher-priced competitors. And this THE DAILY NEWS certainly is. It is a member of the Associated Press, and is the only paper in Chicago which possesses a franchise which secures to it both the day and night dispatches of the Association. In the general field of news-gathering it represents in the highest degree the progressive enterprise of American journalism: as a *news*-paper it challenges comparison with any in the land. In its editorial columns THE DAILY NEWS speaks from the standpoint of the independent newspaper, and thereby escapes the temptation of impairing honest and honorable influence by condoning or defending the questionable under the pressure of party allegiance. It is not an organ, neither is it a neutral in questions of principle. It has the courage of its convictions. The organ of no party, sect or interest, it voices the united demand of all those better elements of society in behalf of purity, honesty and decency in all the relations of life. By just so much as it thus commends itself to the regard of the truly "best people" of the community does it voluntarily renounce any community of interest with all others.

So conspicious a success must have its imitators, and THE DAILY NEWS has the endorsement such imitation always bestows. However as it is the only one-cent paper in Chicago or the West which is a member of the Associated Press—all other Chicago Associated Press papers cost 3 cents—all imitation must continue, so far as *news giving value* is concerned, to be but imitation. THE CHICAGO DAILY NEWS is "the original," "the best."

Sold by all newsdealers at ONE CENT per copy, six cents per week. Mailed, postage paid, for $3.00 per year, or 25 cents per month. Every farmer can now have his daily paper at little more than the cost of the old time weekly. Address

ECHOES OF THE RAIL.

As Usual Monday Sends Up a Dull Budget of News From the Busy Centers.

There are several excursions announced for this week.

Mr. Theodore Titus, engineer on the Pittsburg, is up in Michigan rusticating.

The excursion of the Wabash employes to Detroit will take place next Thursday.

The Wabash boys are making big preparations for their excursion next Thursday.

Mat Backes, of the Pittsburg boiler shops, has been called to Rome City by the sickness of his wife.

J. H. Sloan, clerk of the Pittsburg machine shops, has returned from a visit to his family at Englewood, Ill.

Mr. W. J. Daily, the popular fireman on the Wabash railroad, has been promoted to the position of an engineer.

The Olds wheel works, which have been closed down for several days on account of repairs, started up again this morning.

The new minstrels are well spoken of by every one, and judging from appearances, the house will be packed Thursday next.

Christ Daseler, clerk at the Pittsburg car shops, had a handsome boquet on his desk this morning. It came from his Sunday girl.

Daniel Hurley, assistant foreman of the Pittsburg boiler shops, has returned from an extended visit in the east and at Buffalo, his old home.

Several emigrants were in the city yesterday and made the Pittsburg depot their headquarters, while waiting for their train to the north.

The Pennsylvania company base ball club were beaten Saturday afternoon, in their game with the Berry Street nine by a score of ten to three.

Mr. Frances Burgess, a machinist at the Pittsburg shops, has been granted a several weeks' vacation and is spending it in a trip through the western states.

Charley Van Slack, the well known passenger conductor on the Grand Rapids, had his hand fractured Saturday, while ejecting a Noble county rough and bully from his train.

The management of the Pennsylvania lines have instructed engineers of maintenance of way on their whole system to finish all improvements now in progress but not to undertake any new work.

The Brakemen's Brotherhood took a party of about 300 with them on their excursion to Rome City this morning. The party was a pleasant one and a large number of ladies were with them.

"Did you see the eclipse?" was the question that passed among the boys in the shops this morning. The single fellows who were out with their girls, answered "Yes;" but most of the married men replied in the negative.

The shafting in the Pittsburg machine shops broke down this morning and part of the employes were laid off for to-day. Peter Shied, the assistant foreman of the department, had a narrow escape, as some of the machinery came very near falling on him as he was coming out of the office.

On the first of next month a number of important roads will commence using the new designed duplex ticket. A passenger failing to purchase a ticket before boarding the train will be charged ten cents extra fare, and the conductors will give him a duplex ticket. When he presents this ticket to an agent of the company, the ten cents will be refunded. The railroad companies are said to have the law on their side in this mode of doing business.

It is stated that nothing will be done in the way of extending the Indiana Midland westward until the business of the completed road improves, which will be when the crops begin to move and when there is a better demand for the coal from the Sand Creek mines. The prospects of building the road north from Anderson to Fort Wayne are not very promising. The decision of the supreme court regarding certain subsidies voted to the Anderson, Lebanon and St. Louis road, which the purchasers of the Indiana Midland road expected to get, throws the company out of money that would have aided in building the projected extension.

Cassius I. White

Portland Sun.

C. I. White was arrested at Fort Wayne, Monday, and brought here by Deputy Canfield and the sheriff of Allen county. He is charged with forging the name of R. C. Crow, of Penn township, to a note for $600 in the Redkey bank. The note was dated in September, 1887, and there was a credit of something over $400 in December when it became due After White left, Crow claimed the note was a forgery and Mrs. White, becoming alarmed, railed the money and paid it off. Crow has frequently acted as endorser for White at the People's bank, in this city, and the Citizens' bank of Hartford City. Mr. White's bond was fixed at $1,000, which he was not able to give, and he is now in jail.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. WHO WILL WIN?

The Struggle of the League and Association Base Ball Clubs for the Pennant of 1888.

The contest between the leading clubs of the National League and the American Association this year is a very pretty one and the lovers of the national game in this city are watching the struggle with no small degree of interest. In the National league Chicago and Detroit lead the score, with New York as third, and so evenly matched are the clubs with regard to the number of games lost and won, that it is dangerous to predict which of them will be the winner in the race.

In the American Association, St. Louis and Brooklyn are neck and neck, while the Cincinnatis and Athletics are respectively third and fourth. Chicago and Detroits in the League, and St. Louis and Brooklyn in the Association, are the favorites and mints of money are bet upon the success of each.

THE SENTINEL youth wouldn't bet his salary upon any of the clubs, but it looks as if Detroit and St. Louis would win and, as last year, would be compelled to play for the championship. Every lover of base ball, and there are thousands of them in this city, has his opinion as to who will win the pennant, but that the result of the contest is "mighty unsartin" all will agree. The following is the standing of the clubs with the close of last Saturday's games:

Dyspepsia

Makes the lives of many people miserable and often leads to self destruction. We know of no remedy for dyspepsia more successful than Hood's Sarsaparilla. It acts gently, yet surely and efficiently, tones the stomach and other organs, removes the faint feeling, creates a good appetite, cures headache, and refreshes the burdened mind. Give Hood's Sarsaparilla a fair trial. It will do you good.

Not a particle of calomel, nor any other deleterious substance, enters into the composition of Ayer's Pills. On the contrary, this medicine is carefully compounded from the curative properties of purely vegetable substances. Try it.

They are a novelty because they are not made simply to sell cheap, they are the best that science, skill and money can produce, and will do what is claimed for them. For sprains, aches, weakness, lameness, etc., they are unequaled.

MAGNOLIA BALM

Is no paint or rouge. 'Tis a lovely Liquid, instantly applied to Face, Neck, Arms and hands. Harmless!

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, soon or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE."

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery,** and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is **Scrofula of the Lungs,** is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases** of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at $1.00, or Six Bottles for $5.00.

☞ Send ten cents in stamps for Dr. Pierce's book on Consumption. Address,

Root & Company

A Curious but Valuable Gift.

The man is still living who, seventeen years ago, walked into the rooms of the Bible Society in Boston and electrified the persons whom he found there, first by his appearance, and secondly by the communication he had to make. His appearance betokened more than poverty, for his shabby clothes were tied together with strings. What in the world had brought such a man there was the question every one asked himself, and the wonder can be better imagined than described when the stranger remarked that he had property to the amount of $75,000, which he would like to turn over to the society if he could be guarranteed 10 per cent annually upon it for the remainder of his life, his age then being 79. The officers suppressed their amazement as well as they could, took his name, verified his schedule of his possessions, and submitted the case to the directors. They looked the matter over in the light of actuaries' tables, etc., and finally, after much deliberation, decided that the risk was too great, and so notified the would-be donor. Not long after he came back and renewed his proposition to turn the money over to the society and said that he would be content with 7 per cent annually. That proposition was accepted, and for some years he appeared regularly at the expiration of the year and drew his interest, taking $200 in cash, and the company's note for the balance. After doing this for seven years or so he turned those notes back to the company, saying that he had no use for them. He is now, at the age of 96, blind, deaf, and crippled by a fall so that he cannot walk, and the Bible Society pays the bills for his support. — *Springfield (Mass.) Union*

The members of No. 75 are leaving nothing undone to make the event a popular success. A committee and the great western band will meet the company at the depot upon its arrival.

Miss Ella Smith, a girl employed at the Commercial hotel, was taken suddenly and dangerously ill about midnight last night, and but for the arrival of prompt medical assistance, serious results might have followed. This morning she was resting easy and will recover. Dr. Nieschang attended and found it necessary to remain by the side of the sick girl until day break.

The Kendallville *Standard* says: "H. H. Haines, of Fort Wayne, the proprietor of the popular Fathers Remedies, was in the city Thursday looking after the interests of his medicines. Though contending with a great deal of sickness in his family, and being in poor health himself for some time past, yet he has worked up a big trade in Fort Wayne, and has been successful in extending the business beyond his expectations."

Mr. Geo. W. Worthington, brother of Supt. W. W. Worthington, who attempted to take his own life at Detroit, Friday, is a brilliant lawyer and very popular at Cincinnati, his home. Expressions of sympathy for him have been substantial. The *Enquirer* said yesterday: "George W. Worthington, the well known young lawyer of this city, who attempted suicide in a Detroit barber shop on Friday, is much better, and will recover. A dispatch from Detroit last night stated that Worthington had regained consciousness. He expressed regret that he had not killed himself, and his friends fear he will make another attempt when he gets better."

This morning the ten-weeks-old child of Mr. and Mrs. James O'Leary, died at at the family residence, No. 82 Hugh street, of cholera infantum. The funeral will occur to-morrow at 2 o'clock from the Cathedral, where funeral services will be held.

The German Military Verein gave a picnic at Reidmiller's grove, yesterday afternoon. The affair closed with a free fight, in which one man almost had an eye put out, by a blow from some fellow who handled a beer glass. The Military society, of course, could not help the quarrel, but it is the result of Sabbath carousals.

Mr. R. T. McDonald returned from New York City yesterday morning. He is not hopeful of the Jenney company receiving the contract to light Indianapolis. The Harrison faction is fighting him down there, because of his advocacy of Judge Gresham's cause. This will not make friends for General Harrison in these parts.

Hon. Charles McCulloch is doing honors behind the desk of the Hamilton bank in the absence of Cashier John Mohr. The children of Mr. and Mrs. McCulloch, under charge of a governess, left this morning for the McCullock cottage at Bear Lake. They have a private steamer up there and a daily lake voyage is a feature with the summer colonists at the lake side.

Col. Edward Stevens has been criticising Colonel Robertson's war record in the Indianapolis *Sentinel*. The *Gazette* says there is no such man as Edward Stevens. Unfortunately for the *Gazette* there is, as the record of the New York adjutant general, dated 1868, will show. Edward Stevens entered service as a sergeant and was brevetted a second lieutenant at the close of the war. According to the record the 93d New York regiment did not take part in the battle of Gettysburg and as it was organized in October, 1861, it could not have been in the three months' service.

A FRIGHTFUL FIND.

The Remains of Charles H. Fletcher Lie on the River Bank for a Week.

The dead body of Charles H. Fletcher was found on the west bank of the St. Joe river yesterday morning.

It lay on the side of the ridge that divides the feeder canal from the river, a half above the Centlivre brewery.

The remains were in a horrible state of decomposition, having been exposed to the sun and air for almost, if not a week. The features were swollen beyond all recognition, vermin had plowed the flesh into ridges and a sickening odor came from the body.

It was a frightful find.

Near by lay the man's coat and a pair of cuffs, indicating that he sat down to rest and met with death in some unaccountable way. A gold ring, a few cents and a sample box of oils and roof paints were all his earthly possessions. In a pocket was a letter addressed to Chas. H. Fletcher from C. C. Fletcher, of Fostoria, Ohio, and this led to his identity.

Last Monday, just a week ago, a man called at the Centlivre brewery and sought an order for oils or roof paint. He received none. It is supposed that he proceeded to walk to the paper mill along the canal tow path.

This morning Mrs. Jeremiah S. Baughman, of No. 63 West Fourth street, made a statement that throws some light on the dead man. She says he is the son of C. C. Fletcher, who was formerly a citizen of Fort Wayne, engaged in the grocery business with W. H. Miller. Mr. Fletcher is now in the oil and paint business at Fostoria, O., and the deceased, his son, traveled for him. The young man was about twenty-four years of age and had been absent from Fort Wayne for twelve years. She understands that he was subject to fits and in one of the spells it is fair to presume that he met a lonely and awful death.

In response to a telegram from Coroner Stellhorn, Mr. C. C. Fletcher arrived from Fostoria, this afternoon. The remains of his son are in such a state that they must be buried here. They now lie at the mortuary rooms of J. C. Peltier.

Buying Up Old Grinders.

A sharp-eyed little man attracted the writer's attention in a Chicago hotel by the close watch he maintained at the dinner table upon the jaws of the other guests. After watching them all pretty closely for a while he finally concentrated his attention upon an elderly gentleman opposite, who ate his food with some difficulty. Even a casual observer could have noted that he selected only the softest articles on the bill of fare.

"That man has a bad fitting set of teeth, and I'll get them," said the little man. When the elderly gentleman left the table the little one followed, and in a few moments was in conversation with him, and, as it afterward transpired, had engaged to buy his false teeth as soon as he had obtained a new set.

This little man picks up a great many sets of false teeth in the course of a year. Most persons that have a set before they reach 30 years of age are obliged to buy two more sets, at least, before they reach 60 years, as the mouth changes so that the teeth that fit well and serve the wearer well at first after a while do not fit and cause the wearer a great deal of discomfort. The man that makes a living in this line has acquired a great knack for discovering ill fitting teeth, and he scarcely ever fails to secure a bargain, for notwithstanding false teeth are the only immortal material about our bodies, inasmuch as they are capable of resisting 4,000 degrees of heat (Fahrenheit,) few people know that they are worth anything second hand, and so the little man gets them at his own figure.

He told the writer that many sets of false teeth are found. Owners are more careless of them than is supposed, and instances are more frequent than would be imagined in which they have been left in hotel bedrooms. They have been found in railroad cars, and even in horse cars, and quite frequently turn up in cabs. As the cabbies and railroad employes cannot wear other people's teeth they hunt up the buyer, and he gets the sets for a few shillings. The scavengers sometimes rake up a set in an ash barrel and sets are sometimes picked up in the streets. One set was found in a magpie's nest in Pennsylvania, and another was picked out of a woman's throat by a surgeon. The patient would never wear them again, and they were sold for a song. The little man picks up a nice living by his purchases, added to it now and then by buying a second-hand wig or two.—*New York Press.*

ANIMALS HAVE LANGUAGE.

Monkeys Called Together in Convention Reef Addressed by a Long-Tailed Patriarch.

The intellectual superiority of civilized man over his savage brethren is due to the greater multiplicity of his objects of thought, says the *Gentlemen's Magazine*; and precisely so is it with the intellectual superiority of the savage man over his simian ancestors. The notions of all have the same aim, viz.: the supplying of the wants of physical nature and the gratifying of the desire aroused in the mind. The old theory that speech was altogether limited to the human race has now to be given up once for all, for such a statement cannot stand against the scientific evidence brought forward to oppose it from all quarters.

Language is but a product of reflection and experience, and originated, in all probability, in interjection or the instinctive expression of the subjective impressions derived from external nature; and just as the reflective powers of the race were developed and shown more brilliantly on each stage in the evolutionary march of intellect was passed, so did language pass from the simple monosyllabic cries of the lower animals and savage man in the complex dialects of modern civilization; and it is worthy of note that at the present day, or at least very recently, there were races of savage men inhabiting the earth who possessed no proper language at all, and could not, on account of their manner of living, be placed on a higher intellectual level than the higher apes; while we have the authority of the leading philologists of the day in support of the fact that the monosyllabic cries of some of the lower human tribes are well within the grasp of the ape's voice.

Travelers whose veracity and ability cannot be impugned have described long conferences held by monkeys, where one individual addressed the assembly at great length, fixing the attention of all upon himself and quelling every disturbance by a loud and harsh cry, which was at once recognized and obeyed by the multitude; and we need no traveler to point out to us the many notes of call and recognition possessed by birds of all kinds, who thoroughly understand each other's expressions, and, moreover, are able to produce quite a string of different notes consecutively and without any hesitation. In fact, the organ of voice in some of the lower animals far exceeds in power that of some tribes of the human family.

The Euphonia musica of the East Indies can perform the seven notes in the scale; the chaffinch not only sings real songs, but invents them, one of his songs containing as many as five long strophes, while the songs of many savage races of men never run to half that length, and when Cook visited the Fiji Archipelago the native women could only sing from la to mi. Asia appears to have been the birthplace of stringed instruments, no southern tribes ever having been discovered using such musical appliances. We see, therefore, a gradual improvement taking place in vocal apparatus as we rise in the animal scale, which results in speech and song, and, indirectly, in instrumental music of various degrees; and we find fresh proof that there is as wide a difference between the development of civilized European and the savage man as between that of the savage man and his brute ancestry.

CIVIL SERVICE.

The President, in a Message on the Subject, Gives Some Important Suggestions.

WASHINGTON, July 23.—The president sent to congress to-day his message transmitting the fourth report of the United States civil service commission, covering the period between the 16th of January, 1886, and the 1st of July, 1887.

In the course of the message the president says: The path of civil service reform is not at all times pleasant, nor easy, the purpose of reform having been much misapprehended and this has not only given rise to strong opposition, but has led to its innovation by its friends, to compass objects not in the least related to it.

Thus partisans of the patronage system have naturally condemned it. Those who do not understand its meaning either mistrust it, or when disappointed because in its present stage it is not applied to every real or imaginary ill, accuse those charged with its enforcement with faithlessness to civil service reform.

Its importance has frequently been under estimated and the support of good men has been lost by the lack of interest in its success. Besides all these difficulties, those responsible for the administration of the government in its executive branches have been and are still often annoyed and irritated by disloyalty to its service and the insolence of employes who remain in place as beneficiaries and relics, or reminders of the vicious system of appointment, which civil service reform was intended to displace, and yet these are but incidents of an advance in the movement which is radical and far reaching.

The people are, notwithstanding, to be congratulated upon the progress which has been made and upon the firm, practicable, sensible foundation upon which this reform now rests. With the continuation of the intelligent fidelity which has hitherto characterized the work of the commission, with the continuation and increase of favor and liberty which has lately been evinced by congress in the proper equipment of the commission for its work, with the firm, but conservative and reasonable support of reform by all its friends and with the disappearance of opposition which must inevitably follow its better understanding, the execution of the civil service law cannot fail to ultimately answer the hopes in which it had its origin.

The president has approved the act extending the limits of the port of New Orleans, the branch home for disabled volunteer soldiers in Grant county, Indiana, and an act providing for the sale of the site at Fort Omaha, Nebraska.

The house has passed the senate bill to protect quarantine service in the United States.

TEN MEN KILLED.

A Conductor Fails to Understand His Orders, and a Deadly Collision Follows.

LYNCHBURG, Va., July 23.—A terrible accident occurred on the Norfolk and Western railroad, at Forest depot, about eight miles from this city, at 1 o'clock yesterday morning. Ten men were killed. A freight train, which left Lynchburg about midnight last night, collided at a cut near Forest depot with an east bound material train, causing a complete wreck of both trains. Engineers Henry and Harris, Darnley, the fireman of the material train, and several colored train men, whose names are unknown, were killed. Fireman Mays, of the freight train, was fatally injured. The conductor escaped with light bruises. The accident was caused, it is claimed, by the conductor of the material train misunderstanding orders.

Eight bodies were taken from the wreck on the Norfolk and Western railroad and the report is received that two more are in sight. The list includes Walter Harris and William Henry, engineer, James Donnelly, fireman, all white, and four colored men. A misunderstanding of orders is said to have been the cause of the accident.

Boy Badly Injured.

WABASH, Ind., July 23.—A sad accident occurred yesterday at Punkerbrush, this county, to Bret Stewart, the twelve-year-old son of Mrs. David Stewart, who started for the woods to shoot a squirrel for his mother, who is sick. The heavy shotgun was placed against a woodpile and in some manner discharged. The heavy charge entered the lad's left breast and passed out below the shoulder-joint, shattering the arm and severing the humerus. The boy's condition is critical.

Two Men Seriously Stabbed.

SHELBYVILLE, Ind., July 23.—Hon Richey and Lon Laws, two rough characters of Marietta, attacked Allen Collins, aged about eighteen years, at that place, yesterday, and beat him in a fearful manner, when Collins drew a knife and began cutting the men in lively style. Laws received a dangerous stab in the stomach, while Richey was carried off with several bad wounds. They are both seriously injured.

Congressman White, of this district voted against the Mills bill, although elected as a tariff reformer and liberal republican. The captain will not get any democratic votes this year of our Lord, 1888. Mark the prediction.

BLAINE'S OVATION.

How the Plumed Knight Will be Received in New York City, Upon His Return From Europe, on August 7th.

NEW YORK, July 23.—James G. Blaine's reception on his return from Europe promises to be one of the greatest demonstrations ever witnessed in this country. From what is known it is the belief that there will be over 50,000 people in line, in the parade which will march from Mr. Blaine's landing place to the Fifth Avenue hotel, on the night of August 7.

A grand water pageant will be represented on the arrival of the City of New York at quarantine. Every republican organization in the city will have a special tug chartered to meet the man from Maine. Republican clubs will each take a similar action and it is believed that over 500 crafts of all descriptions will take part in the welcome.

The New York club has already chartered the steamer Sam Sloan, which has a capacity of 1,500. Sam Sloan will be used to transport the members of the club, the national committee, officers of the national league of republican clubs, members of the state committee, and many other guests. Every boat in the big fleet owned by the Iron Steamboat company has already been chartered and steamboat men say there is not an available tug along both fronts of the river in Brooklyn and New York, which has not been hired for the great display.

The clubs from Boston, Philadelphia, and other cities along the eastern seaboards will also have their boats in the parade. The land parade will be a monster affair. Secretary J. W. Jones says there will be more than 1,000 clubs represented in the pageant and that notifications from points as far in land as Ohio are daily pouring in. Mr. Blaine will review the big parade from the balcony of the Fifth Avenue hotel and it is expected he will make a short address to the multitude.

IVES SAYS "NIXEY."

He Will Not Listen to Negotiations for a Settlement From the Other Side.

NIAGARA FALLS, N. Y., July 23.—Financiers Ives and Stayner spent yesterday quietly.

Mr. Ives says that the other side is now proposing negotiations for a settlement, but he and his associates will not listen to anything of the kind. He seems very cheerful and other guests at the hotel say that he seems less worried about the indictments than the newspaper men, who need every sirstogem to get interviews with him. He would not have talked at all if they had not finally found it was useless to try to avoid them. Since he made the statement published yesterday he has not been so careful to conceal himself.

PANIC AMONG THE WORSHIPERS.

Caused by Lightning Striking a Church —The Pastor's Coolness Averts Trouble.

CHICAGO, July 23.—During the thunder storm yesterday morning, while Evangelist Moody's old church, at LaSalle and Chicago avenues, was crowded with worshipers, the belfry was struck by lightning, tearing off a large part of the slate roofing. The congregation was much alarmed, and a rush was made for the street. A panic was averted, however, by the coolness of the pastor, Rev. Charles Goss, who continued the services as though nothing had happened, and in a few minutes the frightened audience resumed their seats.

Killed by a Train.

MONTPELIER, Ind., July 23.—J. C. Maddox was struck by the engine of a freight on the Fort Wayne, Cincinnati and Louisville, at 10:30 Saturday and killed. The engine and four cars passed over the body. Mr. Maddox's horse frightened and started down the track ahead of the engine. The horse escaped, but he was thrown in front of the engine. Mr. Maddox was one of the most prominent men in this part of the state. He was a lawyer, past seventy years of age, but vigorous as many men at fifty. He was very wealthy.

Killed by a Fall.

COLUMBUS, Ind., July 23.—Yesterday Martin McCalpin was found dead, with his skull crushed, at the abutment of the White river bridge, at the edge of this city. He had fallen a distance of twenty-five feet, striking on the rock, and his death was instantaneous. Whether he fell over the bank or was struck and knocked over is not known. He was about twenty-five years old and lived with his father, a short distance from where he was killed.

Young Girl Fatally Shot.

DECATUR, Ind., July 23.—On the farm of F. M. Moore, a few miles from this city, Albert M. Fields shot and mortally wounded Flora Kilpatrick, aged seventeen. The girl had refused to attend a camp-meeting with Fields, and the shooting followed. The murderer was captured shortly afterward and placed in jail in this place. here is much excitement in the vicinity.

WISCONSIN GOT IT.

Heavy Rain and Hail Storms Visited the Badger State Yesterday —Much Damage Done.

PLYMOUTH, Wis., July 23.—This vicinity was visited with heavy rain storms yesterday. Several inches of rain fell, besides a heavy hail, which has done incalculable injury to fruit and crops. A large amount of winter grain is reported utterly destroyed and is so worthless as not to repay the cutting. The storm has been quite general and covered a large area of country.

SHOVERS OF THE QUEER.

Two of Them Arrested This Afternoon at Pittsburg.

PITTSBURG, Pa., July 23.—Two dangerous counterfeiters were arrested this afternoon while attempting to swindle an old man. They had in their possession $48,000 in spurious greenbacks and a large number of dies for quarters and half dollars.

Union Meeting of Railroad Men.

PITTSBURG, July 23.—At a large meeting of Brotherhood locomotive engineers and firemen here yesterday arrangements were made for a grand union meeting of all the lodges in this section, to be held three days, commencing August 27. Among those who will be present are, Chief Arthur, Grand Master Sargent, Vice Grand Master Hanrahan, Chairman Hoge and Eugene V. Debbs. The object of the meeting is not known.

Corner-Stone Laying.

DANVILLE, Ind., July 23.—Yesterday occurred the laying of the corner-stone of St. Elizabeth hospital. Quite a crowd was in the city, excursions coming from different points. The different Catholic societies paraded the streets, accompanied by the police and G. A. R. posts. The sermon was delivered by Father J. F. Donovan, of Tulono.

Safe-Blowers.

MARSHALL, Ind., July 23.—There was another mysterious safe-blowing here early yesterday morning. The large steel safe in Bessor & Marvin's flouring mill was blown to pieces and all the contents taken. Only a few dollars in money were secured and notes and accounts of considerable value.

Seriously Cut.

TIPTON, July 23.—Harry Justus, a brick mason, struck John Tarpy, a grocery clerk, on the neck with a trowel, yesterday, cutting several small arteries, and making a very dangerous wound. Justus is in jail. The assault was unprovoked, and the feeling against Justus is bitter. Tarpy's recovery is doubtful.

ADDITIONAL LOCAL.

Mr. B. Cohn and J. F. Gerke, city, are registered at the Aveline house.

M. Straus, Chicago; Robert Ewing, Huntington, B. F. Fisher, Van Wert, are at the Aveline.

Dr. and Mrs. W. H. Myers leave tomorrow for New York City to sail thence for Europe. The doctor is a delegate from the American Medical society to the British association.

Everybody interested in the fair of the railroad reading room are earnestly requested to be present at a general meeting to be held in the parlors, 245 Calhoun street, this evening at 7:30 p. m., standard time. By order of the committee of management.

The Indianapolis *Sentinel* came out in a strong editorial this morning, insisting that the Indianapolis council award the contract for lighting that city to the Jenney company, of Fort Wayne. Every Indianapolis paper, save the *Journal*, has spoken favorably for the Jenney company. The *Journal* cannot forget the friendship of the Jenney people for Judge Gresham and seeks to revenge itself by defeating their proposition to light Indianapolis. It is to be hoped the Jenney company will succeed.

"It," a remarkable cat, died at Putnam, Conn., last week. The anima had seven legs and two tails. He strange deformity enabled her to do many tricks: "She was able to walk at any angle without turning, and whenever the perpendicular walls were near enough together she could go up them as easily as she could walk the floor, while it was her favorite sport to climb a tin pipe to the roof of the house. She was placed in a triangular black walnut box, with the simple inscription "It," and many of the villagers attended the burial.

BISMARCK HONORED.

He Holds an Audience With the Czar and Has Honors Bestowed Upon Him.

ST. PETERSBURG, July 23.—Count Herbert Bismarck, who accompanied the emperor of Germany on his visit to Russia, was granted an audience of an hour and a quarter by the czar yesterday. The czar bestowed upon the count the brilliant decoration of the order of St. Alexander Nowski.

ST. PETERSBURG, July 23.—The czar will return the visit of Emperor William in the autumn, stopping at Berlin on his way from Copenhagen to St. Petersburg.

LONDON, July 23.—At a meeting of the cabinet to-day it was decided to hold the autumn session in the second week in August and it will reassemble in October.

EMIL SCHANDEIN DEAD.

Demise of the Millionaire Brewer at Bremen, Germany.

MILWAUKEE, Wis., July 23.—A cablegram received here yesterday announces the death at Bremen, Germany, of the millionaire brewer, Emil Schandein, vice-president of the Best Brewing company. He had been away but a month, having gone to Europe immediately after the democratic national convention, to which he was a delegate-at-large from Wisconsin.

Obituary.

LAFAYETTE, Ind., July 23.—City Treasurer John B. McCutcheon died this morning, after a brief illness. Politically, Captain McCutcheon was a democrat, and very popular with voters, having been elected sheriff, of this county, a republican stronghold. He had about thirteen months to serve as city treasurer. He was sixty years old.

General Sheridan.

NEW BEDFORD, Mass., July 23.—General Sheridan this morning is feeling strong and bright. He continues to take solid food and the character of his nourishment is being changed to that approaching the diet of a healthy man. To-day he will doubtless be permitted to see his friends.

Says Randall's Illness is Fatal.

NEW YORK, July 23.—The World's special from Washington says that Mr. Randall is suffering from cancer of the stomach, and will probably not return to the house, as the disease is far advanced and incurable.

Democrats Organizing.

Saturday night the democrats of Lafayette township met at Center school house and organized a Cleveland and Thurman club, with Mr. Geo. Lawrence as president. Speeches were made by Hon. J. M. Barrett and Hon. C. A. Munson. The greatest enthusiasm prevailed and Lafayette township is in splendid fighting form.

Another rousing meeting was held at Hoagland and a big Cleveland and Thurman club was organized. Mr. J. M. Robinson made them a great speech. The democrats down that way are jubilant and confident.

The Weather.

WASHINGTON, July 23.—Indiana: Fair weather, preceded by local rains, followed by stationary temperature, slightly cooler on Tuesday.

THE MARKETS.

NEW YORK, July 23.—The stock market was quite dull but generally steady at the opening, most of the list being unchanged from Saturday's closing prices or a slight fraction different. Subsequent dealings are almost devoid of feature. At 11 o'clock the market was very dull and about steady at the close to opening prices.

DO WE WANT CUBA?

Ethan Allen Advocates Its Purchase by the United States for $100,000,000.

NEW YORK, July 23.—The *Sun* prints an interview with Ethan Allen, who has taken much interest in Cuban affairs, in which he says the only hope for Cuba is her annexation to this country. All our efforts should tend to the peaceful acquisition of Cuba. The great majority of Cubans look upon this as their deliverance and their country's salvation. The only obstacle in the way is Spain, and as she has already entertained the idea of disposing of Cuba, provided she can get her price, this difficulty is easily gotten over.

"I advocate its peaceful acquisition. In my judgment $100,000,000 will secure this noble island to us. Congress ought to take the initiative at once. We have a surplus and are quarrelling as to how to dispose of it. Here is a way in which it may be used, or a portion of it, with great profit in finance and with great glory to our republic."

THE ALLEGED DYNAMITE PLOT.

A Chicagoan Who Says It Was Planned by Detectives to Enhance Their Reputations.

A gentleman from Chicago, a guest at the Bates house, said yesterday to a reporter of the Indianapolis *Journal*, that the big sensation over the dynamiters at Chicago was the result of a well-laid scheme of the Pinkerton Detective company and an official high up in police circles, who were laboring by these means to enhance their own reputations. "I form my opinion wholly from the evidence in the case," said he. "Every one of the men who are offering the testimony against the Brotherhood members went into the railroad business and joined the Brotherhood just before the strike.

"No sooner were they in the organization, it appears, than they began to develop an abnormal appetite for blood and began to talk about dynamite plots. It ought to bring the Pinkerton company into everlasting disgrace, and the 'Q' company, too, if it was in any way connected with it. The whole business is a pure 'fake' and the people of Chicago are beginning to realize it.

"Another thing that looks very silly is all this talk about dynamite cartridges being placed on the 'Q' tracks. Several of them have been found along the road, but none of them have done any damage as yet.

"It is claimed the intention of these is to frighten passengers and injure traffic. Well, now, it stands to reason, that any one who was bold enough to put any kind of a cartridge on the track, would not hesitate to put one on that would do some damage, and not these things that have been filled with sawdust. They were large enough, if filled with dynamite, to blow a hole through the board of trade."

KILLED BY A TRAIN.

Mr. McDonald, Formerly of This City is Run Over and Killed at Leipsic, Ohio.

Yesterday afternoon while Mr. James McDonald was attempting to board a train on the Nickel Plate railroad, at Leipsic, Ohio, he lost his hold and fell under the wheels. The train was in motion at the time and the wheels passing over him, killed him instantly.

Mr. McDonald was a resident of Ohio, but was at one time employed with the Nickel Plate railroad in this city.

He had been in the employ of the road here for six years, but left several months ago for Ohio, where he has since lived. His remains were taken to Granville, O., where his mother resides.

THE ECLIPSE.

The Great Free Show Seen in the Heaven Last Night.

The eclipse of the moon came off last evening as advertised and was witnessed by a large number of people in this city, many of whom remained up until the phenomenon in the heavens had passed through all its stages. The clouds, which began to gather a short time after the moon had entered the earth's shadow, interfered considerably with the sight, still our citizens obtained a very good view of it.

It began about 10:30 o'clock and reached its totality at 12:20, emerging from the shadow at 1:44 and leaving it entirely at 2:21.

The well-known copper color, due to the reflected light, was distinctly visible, giving it a hazy appearance that grew more so the nearer the eclipse reached its totality.

It was quite an interesting sight and as the spectators who witnessed the grand show, paid nothing for admission or reserved seats, the exhibition gave general satisfaction.

You Carry

a whole medicine chest in your pocket, with one box of Ayer's Pills. As they operate directly on the stomach and bowels, they indirectly affect every other organ of the body. When the stomach is out of order, the head is affected, digestion fails, the blood becomes impoverished, and you fall an easy victim to any prevalent disease. Miss M. E. Boyle, of Williamsburg, Pa., puts the whole truth in a nutshell, when she says: "I use no other medicine than Ayer's Pills. They are all that any one needs, and just a splendid to save money in doctors' bills."

Here is an instance of

A Physician

who lost his medicine chest, but, having at hand a bottle of Ayer's Pills, found himself fully equipped.—J. Arrison, M. D., of San José, Cal., writes:

"Some three years ago, by the merest accident, I was forced, so to speak, to prescribe Ayer's Cathartic Pills for several sick men among a party of engineers in the Sierra Nevada mountains, my medicine chest having been lost in crossing a mountain torrent. I was surprised and delighted at the action of the Pills, so much so, indeed, that I was led to a further trial of them, as well as of your Cherry Pectoral and Sarsaparilla. I have nothing but praise to offer in their favor."

John W. Brown, M. D., of Oconee, W. Va., writes: "I prescribe Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

T. E. Hastings, M. D., of Baltimore, Md., writes: "That Ayer's Pills do control and cure the complaints for which they are designed, is as conclusively proven to me as anything possibly can be. They are the best cathartic and aperient within the reach of the profession."

THE national democratic and republican campaign headquarters are open and lively preparations are being made for the struggle.

BISHOP VINCENT, in a letter from Chautauqua indorsing Harrison, says: "Being an anti-Romanist, I am a republican." And we are to have another Burchard, under another name.

THE Philadelphia *Press* twitted the Philadelphia *Times* for having changed its policy in supporting Cleveland and tariff reduction. The *Times* retorts that "wise men change, fools never."

CALVIN S. BRICE, the chairman of the democratic national executive committee, used to teach school in Ohio and take part of his pay out in boarding around at the homes of his pupils. It was the father of one of his pupils who gave him his start towards a fortune. The old man saw the young teacher, liked him and let him into a growing railroad enterprise at a low cost. It succeeded. If it had failed Calvin S. Brice would have been penniless, for he had put into it every dollar of his savings.

THE Philadelphia *Times* contributes this: "General Harrison's private secretary, D. S. Alexander, is a native of Erie county, Pa., and a graduate of Bowdoin. After graduating he taught in the public schools of Fort Wayne. He afterwards became one of the editors and proprietors of the Fort Wayne *Gazette*, but went from journalism into law, settling at Indianapolis. He never relinquished entirely his interest in journalism, and in political campaigns has been the Indianapolis correspondent of the Cincinnati *Commercial Gazette*. Under Garfield he was fifth comptroller of the treasury through Senator Harrison's influence. Mr. Alexander is a large, fine-looking man, with reddish hair and sparkling brown eyes, genial temperament and courteous demeanor."

THE Mills tariff measure passed the house Saturday by a decisive vote. It is a conservative bill, aimed alone at a reduction of excessive and unnecessary taxation. While it is remote from free trade, it pretends to increase the opportunities and advantages of the working classes, by making the cost of living less and the demands for labor more. The bill now goes to the republican senate and what its fate will be no one can tell. It will still encounter the opposition of the protected capitalists who reap millions of dollars, if it did not do this they wouldn't oppose it. The Mills bill, however, will go down to history as a just, wise and conservative measure. It can be printed side by side with the present tariff schedule and will convince every honest voter of the necessity and righteousness of the tax reduction it attempts. If anybody who pays taxes likes the business, and prefers to pay more rather than less taxes, why it is useless to convince him that the Mills bill is a just one. But if a man prefers to pay low rather than high taxes he ought to be honest enough to give the Mills bill unqualified approval and vote for Cleveland and Thurman.

A peculiarity of Hood's Sarsaparilla is that while it purifies the blood, it imparts new vigor to every function of the body.

A TARIFF LESSON.

A high tariffite orator or writer does not usually condescend to argument. He is mostly sentimental, exclamatory and laughtersome, but occasionally he seems to feel that the people may weary of his "taffy" and he proceeds to give them what he calls "cold facts." On these occasions he usually does not employ official statistics, compiled by skilled men, but he pulls out of some dusty corner "fishy" reports of a paid attorney of his cause, gleaned on a flying trip and based upon "studies of the industrial condition of Europe," made from a car window. Having thus arranged his premises to his own satisfaction, he jumps at a conclusion, thrusts his tongue in his cheek, winks slightly, and says to himself, "a devilish sly fellow am I."

If his argument bristles with figures, you may be sure it bristles with folly or falsehood. If he compares the prices of Australian wool with our own, he selects the lowest grade there and compares it with the highest grade here, and chuckles at the trick. He will know that the market reports show that medium wools sell at Sydney for from 20 to 24 cents per pound. If he quotes Bradstreet to show that the Mills bill has depressed the wool market, he conceals the fact that between 1867 and 1883, the period of highest protection, wool has repeatedly sold at from 20 to 25 cents per pound. He knows very well that the market is overstocked with woolen goods, that the manufacturers are receiving no orders, and hence are buying little wool, and that therefore wool is low. He knows that these periodical depressions are the inevitable consequence of high protection. He knows that the wool market has been steadier and has maintained a higher level under a low duty than under a high one. All these things he knows, but he speaks not of them. They would spoil his conclusion.

Would he demonstrate the great loss the farmer suffers by the removal of the duty on wool, he quietly repudiates what at other times he loudly asserts, viz: that the price of an article is not increased by the full amount of the duty, and he says nothing about what the farmer loses by the extortionate duties on manufactured woolens. He knows that in the eight states of Illinois, Iowa, Indiana, Ohio, Pennsylvania, New York, Michigan and Wisconsin there are about 16,000,000 sheep, and that in these same states there are about 3,000,000 farmers exclusive of agricultural laborers. Each farmer averages, therefore, a fraction more than seven sheep, or forty-two pounds of wool. His gain from the duty of ten cents per pound could not exceed $4.20, while his loss, if he buys $70 worth of woolen clothing, blankets, flannels and carpets per annum, would be $14, provided our average duty of 70 per cent. raises the price only 20 per cent. If the duty does not raise the price that much there is not much protection in it, is there? Each farmer then loses $9.80 cents by the duty, and the farmers of these eight states lose annually about $18,000,000. This, too, the high tariffite knows, but speaks not of. He can see only one side of the ledger. He proudly declares that he reckons he knows his multiplication table as well as any one, and probably he does; but I have been told that not infrequently, bright boys in school fail to solve the simplest problems, not because they do not know their multiplication table, but because they fail to reason correctly upon the results obtained by multiplication. "The bearings of an observation lay in the application on it."

Does some one expose our high protectionists folly or disingenuousness, "he yells "pauper labor of Europe," a trifle more lustily than usual. This is an argument of about the same cogency as that other famous argument, "Do you want your daughter to marry a nigger?" And it is used by men of about the same calibre.

Having made himself hoarse with shouting this battle cry of slavery (for commercial restriction is commercial slavery) our high tariffite sniffles a little over the woes of the men whom he is helping to oppress, wipes his nose on his country's flag, puts on his silk stockings and goes off to dine with his monopolist employer and to devise new schemes to impose upon the unwary. "He's tough, sir, tough is J. B, —tough and devilish sly."

Yours very respectfully,
LOW TARIFF.

The Newspaper Revolution.

From the Rockford (Ill.) Register.

"The era of cumbrous blanket-sheets seems coming to an end, and newspapers like the *New York Sun* and THE CHICAGO DAILY NEWS are the prominent journalistic successes of the period. The papers that give enough reading matter to fill a good volume in each daily issue are going out of favor with many people who have some other employment for their time than the search through mountains of straw for kernels of news. The sheets that give the news systematically and amply, and without unnecessary padding, are taking the lead in the great cities."

Forty years ago the chief duty of an editor, in view of his limited facilities, was to gather all the news he could and print it. Intelligence was transmitted slowly; many occurrences of interest were never heard of beyond their immediate locality; ocean mails were long in transit, and the overthrow of an European dynasty was not known here until long after the event. Suddenly there came a change. The railroad and the telegraph superseded old methods, and the newspaper was literally flooded with news. The death of a petty ward politician in San Francisco, the result of a Presidential election, the accession of a sovereign, the outbreak of a war, and notice that a shanty had been burden in Texas, all were hurried over the wires into the newspaper offices, and there being no idea of discrimination, all were printed.

Thus originated the "blanket sheet." The publisher who could send out the biggest blanket for a nickel was the most enterprising; the biggest paper was the best; it was a period of bigness. But after a time the very excess of the evil brought the remedy, and there began an era of discrimination, during which arose such journals as the *New York Sun* and THE CHICAGO DAILY NEWS. That the public appreciated the new departure is best evidenced in the fact that the *Sun* reached a circulation of 150,000 a day, and THE DAILY NEWS 175,000. The wonderful and constantly growing popularity of the condensed, low-priced papers has so far brought the cumbrous and high-priced blanket-sheets to their senses, that they have now somewhat reformed both as to size and price, but they are still too far removed from the true ideal of American journalism to meet the needs of the great majority.

In the west THE CHICAGO DAILY NEWS has been the first to appreciate and meet the situation, and it now enjoys the results of its twelve years of pioneer work in a daily circulation averaging over three times that of any of its contemporaries, and considerably more than the circulations of all other Chicago dailies combined. It is hardly necessary to say that such a circulation could not be attained, much less maintained, except by a paper of high grade of excellence, as well as one sold at a popular price. To win such recognition the cheap paper must be *as good a newspaper* as the best of its higher-priced competitors. And this THE DAILY NEWS certainly is. It is a member of the Associated Press, and is the only paper in Chicago which possesses a franchise which secures to it both the day and night dispatches of the Association. In the general field of news-gathering it represents in the highest degree the progressive enterprise of American journalism: as a *news*-paper it challenges comparison with any in the land.

In its editorial columns THE DAILY NEWS speaks from the standpoint of the independent newspaper, and thereby escapes the temptation of impairing honest and honorable influence by condoning or defending the questionable under the pressure of party allegiance. It is not an organ, neither is it a neutral in questions of principle. It has the courage of its convictions. The organ of no party, sect or interest, it voices the united demand of all those better elements of society in behalf of purity, honesty and decency in all the relations of life. By just so much as it thus commends itself to the regard of the truly "best people" of the community does it voluntarily renounce any community of interest with all others.

So conspicuous a success must have its imitators, and THE DAILY NEWS has the endorsement such imitation always bestows. However as it is the only one-cent paper in Chicago or the West which is a member of the Associated Press—all other Chicago Associated Press papers cost 3 cents—all imitation must continue, so far as *news giving value* is concerned, to be but imitation. THE CHICAGO DAILY NEWS is "the original," "the best."

Sold by all newsdealers at ONE CENT per copy, six cents per week. Mailed, postage paid, for $3.00 per year, or 25 cents per month. Every farmer can now have his daily paper at little more than the cost of the old time weekly. Address

ECHOES OF THE RAIL.

An Usual Monday Sends Up a Dull Budget of News From the Busy Centers.

There are several excursions announced for this week.

Mr. Theodore Titus, engineer on the Pittsburg, is up in Michigan rusticating.

The excursion of the Wabash employes to Detroit will take place next Thursday.

The Wabash boys are making big preparations for their excursion next Thursday.

Mat Bankes, of the Pittsburg boiler shops, has been called to Rome City by the sickness of his wife.

J. H. Sloan, clerk of the Pittsburg machine shops, has returned from a visit to his family at Englewood, Ill.

Mr. W. J. Daily, the popular fireman on the Wabash railroad, has been promoted to the position of an engineer.

The Olds wheel works, which have been closed down for several days on account of repairs, started up again this morning.

The new minstrels are well spoken of by every one, and judging from appearances, the house will be packed Thursday next.

Christ Daseler, clerk at the Pittsburg car shops, had a handsome bouquet on his desk this morning. It came from his Sunday girl.

Daniel Hurley, assistant foreman of the Pittsburg boiler shops, has returned from an extended visit in the east and at Buffalo, his old home.

Several emigrants were in the city yesterday and made the Pittsburg depot their headquarters, while waiting for their train to the north.

The Pennsylvania company base ball club were beaten Saturday afternoon, in their game with the Berry Street nine by a score of ten to three.

Mr. Frances Burgess, a machinist at the Pittsburg shops, has been granted a several weeks' vacation and is spending it in a trip through the western states.

Charley Van Slack, the well known passenger conductor on the Grand Rapids, had his hand fractured Saturday, while ejecting a Noble county rough and bully from his train.

The management of the Pennsylvania lines have instructed engineers of maintenance of way on their whole system to finish all improvements now in progress but not to undertake any new work.

The Brakemen's Brotherhood took a party of about 300 with them on their excursion to Rome City this morning. The party was a pleasant one and a large number of ladies were with them.

"Did you see the eclipse?" was the question that passed among the boys in the shops this morning. The single fellows who were out with their girls, answered "Yes;" but most of the married men replied in the negative.

The shafting in the Pittsburg machine shops broke down this morning and part of the employes were left idle for to-day. Peter Shied, the assistant foreman of the department, had a narrow escape, as some of the machinery came very near falling on him as he was coming out of the office.

On the first of next month a number of important roads will commence using the new designed duplex ticket. A passenger failing to purchase a ticket before boarding the train will be charged ten cents extra fare, and the conductors will give him a duplex ticket. When he presents this ticket to an agent of the company, the ten cents will be refunded. The railroad companies are said to have the law on their side in this mode of doing business.

It is stated that nothing will be done in the way of extending the Indiana Midland westward until the business of the completed road improves, which will be when the crops begin to move and when there is a better demand for the coal from the Sand Creek mines. The prospects of building the road north from Anderson to Fort Wayne are not very promising. The decision of the supreme court regarding certain subsidies voted to the Anderson, Lebanon and St. Louis road, which the purchasers of the Indiana Midland road expected to get, throws the company out of money that would have aided in building the projected extension.

Caschas I. White

Portland Sun.

C. I. White was arrested at Fort Wayne, Monday, and brought here by Deputy Canfield and the sheriff of Allen county. He is charged with forging the name of R. C. Crow, of Penn township, to a note for $600 in the Redkey bank. The note was dated in September, 1887, and there was a credit of something over $400 in December when it became due. After White left, Crow claimed the note was a forgery and Mrs. White, becoming alarmed, called the money and paid it off. Crow has frequently acted as endorser for White at the People's bank, in this city, and the Citizens' bank of Hartford City. Mr. White's bond was fixed at $1,000, which he was not able to give, and he is now in jail.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

WHO WILL WIN?

The Struggle of the League and Association Base Ball Clubs for the Pennant of 1888.

The contest between the leading clubs of the National League and the American Association this year is a very pretty one and the lovers of the national game in this city are watching the struggle with no small degree of interest. In the National league Chicago and Detroit lead the score, with New York as third, and so evenly matched are the clubs with regard to the number of games lost and won, that it is dangerous to predict which of them will be the winner in the race.

In the American Association, St. Louis and Brooklyn are neck and neck, while the Cincinnatis and Athletics are respectively third and fourth. Chicago and Detroits in the League, and St. Louis and Brooklyn in the Association, are the favorites and minis of money are bet upon the success of each.

THE SENTIMENT youth wouldn't bet his salary upon any of the clubs, but it looks as if Detroit and St. Louis would win and, as last year, would be compelled to play for the championship. Every lover of base ball, and there are thousands of them in this city, has his opinion as to who will win the pennant, but that the result of the contest is "mighty uncertin" all will agree. The following is the standing of the clubs with the close of last Saturday's games:

AMERICAN ASSOCIATION.

Clubs.	Games won.	Games lost.	Per cent
St. Louis	45	23	.661
Brooklyn	43	25	.657
Cincinnatis	43	27	.614

Dyspepsia

Makes the lives of many people miserable and often leads to self destruction. We know of no remedy for dyspepsia more successful than Hood's Sarsaparilla. It acts gently, yet surely and efficiently, tones the stomach and other organs, removes the faint feeling, creates a good appetite, cures headache, and refreshes the burdened mind. Give Hood's Sarsaparilla a fair trial. It will do you good.

Not a particle of calomel, nor any other deleterious substance, enters into the composition of Ayer's Pills. On the contrary, this medicine is carefully compounded from the curative properties of purely vegetable substances. Try it.

A SEAGULL was shot recently in Tioga County, Pennsylvania.

She Tried and Knows.

A leading chemist of New York says: "The makers of each meal on the Ah-lo-pho-ros Platters have ever before been produced." They are a novelty because they are not made simply to sell cheap, they are the best that science, skill and money can produce, and will do what is claimed for them. For sprains, aches, weakness, lameness, etc., they are unequaled.

Sold by Fulton St., Randolph C., New St., W. Madison St., Chicago, and druggists generally. If in the best ever used and having used many kinds. Our druggist said: "Ladies speak about the same of that I tried little so much I stopped it, as it was and stopped it. July, and I am now entirely well from pain and all now." Write Mattie Morris.

MAGNOLIA BALM

Is no paint or soap. 'Tis a lovely Liquid, instantly applied to Face, Neck, Arms and hands. Harmless!

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, listless, and indescribably miserable, both physically and mentally: experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or sensation, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, complicated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time, and cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the kidneys, and other agencies, of digestion, cleansing, strengthening, and healing their diseased. As an appetizing, restorative, tonic it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts this wonderful medicine has gained a widespread celebrity in curing Fevers and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful purifying, and invigorating medicine. Great Lasting Blows rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise on Blood and Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

☞FOR THE BLOOD IS THE LIFE.☜

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery**, and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is Scrofula of the Lungs, is arrested and cured by this remedy, if taken in the earlier stages of the disease. For this marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, the proprietors felt warranted in calling it the "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is specific not only as a remedy for Consumption, but for all Chronic Diseases of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is unequaled. For Sale by Druggists, at $1.00, or Six Bottles for $5.00.

Root & Company

A Curious but Valuable Gift.

The man is still living who, seventeen years ago, walked into the rooms of the Bible Society in Boston and electrified the persons whom he found there, first by his appearance, and secondly by the communication he had to make. His appearance betokened more than poverty, for his shabby clothes were tied together with strings. What in the world had brought such a man there was the question every one asked himself, and the wonder can be better imagined than described when the stranger remarked that he had property to the amount of $75,000, which he would like to turn over to the society if he could be guaranteed 10 per cent annually upon it for the remainder of his life, his age then being 70. The officers suppressed their amazement as well as they could, took his name, verified his schedule of his possessions, and submitted the case to the directors. They looked the matter over in the light of actuaries' tables, etc., and finally, after much deliberation, decided that the risk was too great, and so notified the would-be donor. Not long after he came back and renewed his proposition to turn the money over to the society and said that he would be content with 7 per cent annually. That proposition was accepted, and for some years he appeared regularly at the expiration of the year and drew his interest, taking $200 in cash, and the company's note for the balance. After doing this for seven years or so he turned those notes back to the company, saying that he had no use for them. He is now, at the age of 95, blind, deaf, and crippled by a fall so that he cannot walk, and the Bible Society pays the bills for his support. — *Springfield (Mass.) Union.*

The members of No. 75 are leaving nothing undone to make the event a popular success. A committee and the great western band will meet the company at the depot upon its arrival.

Miss Ella Smith, a girl employed at the Commercial hotel, was taken suddenly and dangerously ill about midnight last night, and but for the arrival of prompt medical assistance, serious results might have followed. This morning she was resting easy and will recover. Dr. Nicolaus attended and found it necessary to remain by the side of the sick girl until day break.

The Kendallville *Standard* says: "H. H. Haines, of Fort Wayne, the proprietor of the popular Fathers Remedies, was in the city Thursday looking after the interests of his medicines. Though contending with a great deal of sickness in his family, and being in poor health himself for some time past, yet he has worked up a big trade in Fort Wayne, and has been successful in extending the business beyond his expectations."

Mr. Geo. W. Worthington, brother of Supt. W. W. Worthington, who attempted to take his own life at Detroit, Friday, is a brilliant lawyer and very popular at Circleville, his home. Expressions of sympathy for him have been substantial. The *Enquirer* said yesterday: "George W. Worthington, the well known young lawyer of this city, who attempted suicide in a Detroit barber shop on Friday, is much better, and will recover. A dispatch from Detroit last night stated that Worthington had regained consciousness. He expressed regret that he had not killed himself, and his friends fear he will make another attempt when he gets better."

The Business Men's exchange will meet to-night.

Mr. B. M. Hays, the general secretary of the Y. M. C. A., filled the pulpit of the Wayne street M. E. church yesterday in the absence of Rev. Barnes, who is off on his summer vacation.

Rev. Father Werdein left Arcola today for his new charge at Michigan City. The clergyman had greatly endeared himself to his parishioners. Rev. Father Quinlan succeeds him at Arcola.

Mr. E. S. Philley led the services at the railroad department of the Y. M. C. A. yesterday afternoon and Mr. Fred Hedden presided at the organ. The meeting was an interesting and profitable one.

Miss Ella Stoll, of South Bend, daughter of J. B. Stoll, of the South Bend *Times*, returned to her home today after a weeks visit in the city with Mrs. Henry Sackner and Miss Lillie Heid on Griffith street.

A team of horses attached to one of Wm. Hahn's beer wagons, ran away this morning and spilled one hundred kegs of the foaming about town. At the corner of Main and Calhoun the horses wrecked a peanut stand and content with this they stopped.

The reports that come from the sick room of Miss Mae Hover, who has been sick for the last thirteen weeks, are more encouraging and it is believed now that the young lady is on her road to recovery. She has been given up for dead on three different occasions by her father and her many friends will be glad to hear that she is improving.

Miss Linnie Horstmeyer and Mr. Christ Rose were married yesterday afternoon at the Emanuel Lutheran church, by Rev. Gross. After the ceremony a pleasant reception was given the young couple at the bride's home on Ewing street. The groom is the popular young East Wayne street grocer and the bride is an accomplished young lady.

Harvey M. LaFollette, superintendent of public instruction, is mailing to those interested in educational affairs a complete list of the Indiana county institutes to be held during 1888. The list is arranged alphabetically by counties and contains the names of county superintendents and instructors engaged, together with the date of meeting so far as could be learned.

The German Military Verein gave a picnic at Reidmiller's grove, yesterday afternoon. The affair closed with a free fight, in which one man almost had an eye put out, by a blow from some fellow who handled a beer glass. The Military society, of course, could not help the quarrel, but it is the result of Sabbath carousals.

Mr. R. T. McDonald returned from New York City yesterday morning. He is not hopeful of the Jenney company receiving the contract to light Indianapolis. The Harrison faction is fighting him down there, because of his advocacy of Judge Gresham's cause. This will not make friends for General Harrison in these parts.

Hon. Charles McCulloch is doing honors behind the desk of the Hamilton bank in the absence of Cashier John Mohr. The children of Mr. and Mrs. McCulloch, under charge of a governess, left this morning for the McCulloch cottage at Bear Lake. They have a private steamer up there and a daily lake voyage is a feature with the summer colonists at the lake side.

Col. Edward Stevens has been criticising Colonel Robertson's war record in the Indianapolis *Sentinel*. The *Gazette* says there is no such man as Edward Stevens. Unfortunately for the *Gazette* there is, as the record of the New York adjutant general, dated 1885, will show. Edward Stevens entered service as a sergeant and was brevetted a second lieutenant at the close of the war. According to the record the 93d New York regiment did not take part in the battle of Gettysburg and as it was organized in October, 1861, it could not have been in the three months' service.

A FRIGHTFUL FIND.

The Remains of Charles H. Fletcher Lie on the River Bank for a Week.

The dead body of Charles H. Fletcher was found on the west bank of the St. Joe river yesterday morning.

It lay on the side of the ridge that divides the feeder canal from the river, a half above the Centlivre brewery. The remains were in a horrible state of decomposition, having been exposed to the sun and air for almost, if not a week. The features were swollen beyond all recognition, vermin had plowed the flesh into ridges and a sickening odor came from the body.

It was a frightful find.

Near by lay the man's coat and a pair of cuffs, indicating that he sat down to rest and met with death in some unaccountable way. A gold ring, a few cents and a sample box of oils and roof paints were all his earthly possessions. In a pocket was a letter addressed to Chas. H. Fletcher from O. C. Fletcher, of Fostoria, Ohio, and this led to his identity.

Last Monday, just a week ago, a man called at the Centlivre brewary and sought an order for oils or roof paint. He received none. It is supposed that he proceeded to walk to the paper mill along the canal low path.

This morning Mrs. Jeremiah S. Baighman, of No. 63 West Fourth street, made a statement that threw some light on the dead man. She says he is the son of O. C. Fletcher, who was formerly a citizen of Fort Wayne, engaged in the grocery business with W. H. Miller. Mr. Fletcher is now in the oil and paint business at Fostoria, O., and the deceased, his son, traveled for him. The young man was about twenty-four years of age and had been absent from Fort Wayne for twelve years. She understands that he was subject to fits and in one of the spells it is fair to presume that he met a lonely and awful death.

In response to a telegram from Coroner Stellhorn, Mr. O. C. Fletcher arrived from Fostoria, this afternoon. The remains of his son are in such a state that they must be buried here. They now lie at the mortuary rooms of J. C. Peltier.

Buying Up Old Grinders.

A sharp-eyed little man attracted the writer's attention in a Chicago hotel by the close watch he maintained at the dinner table upon the jaws of the other guests. After watching them all pretty closely for a while he finally concentrated his attention upon an elderly gentleman opposite, who ate his food with some difficulty. Even a casual observer could have noted that he selected only the softest articles on the bill of fare.

"That man has a bad fitting set of teeth, and I'll get them," said the little man. When the elderly gentleman left the table the little one followed, and in a few moments was in conversation with him, and, as it afterward transpired, had engaged to buy his false teeth as soon as he had obtained a new set.

This little man picks up a great many sets of false teeth in the course of a year. Most persons that have a set before they reach 50 years of age are obliged to buy two more sets, at least, before they reach 60 years, as the mouth changes so that the teeth that fit well and serve the wearer well at first after a while do not fit and cause the wearer a great deal of discomfort. The man that makes a living in this line has acquired a great knack for discovering ill fitting teeth, and he scarcely ever fails to secure a bargain, for notwithstanding false teeth are the only immortal material about our bodies, inasmuch as they are capable of resisting 4,000 degrees of heat (Fahrenheit,) few people know that they are worth anything second hand, and so the little man gets them at his own figure.

He told the writer that many sets of false teeth are found. Owners are more careless of them than is supposed, and instances are more frequent than would be imagined in which they have been left in hotel bedrooms. They have been found in railroad cars, and even in horse cars, and quite frequently turn up in cabs. As the cabbies and railroad employes cannot wear other people's teeth they hunt up the buyer, and he gets the sets for a few shillings. The scavengers sometimes rake up a set in an ash barrel and sets are sometimes picked up in the streets. One set was found in a magpie's nest in Pennsylvania, and another was picked out of a woman's throat by a surgeon. The patient would never wear them again, and they were sold for a song. The little man picks up a nice living by his purchases, added to it now and then by buying a second-hand wig or two.—*New York Press.*
